

PINES

“The timing of your themes are perfect for the pressures of middle school. Olivia left with a strong sense that only through a continually growing relationship with Jesus can you really be an authentic, whole person – the person you were meant to be.”

7th-9th Grades

The environment of GENEVA Pines is an intentional weaving of fun and faith experiences. This is the result of energetic college students with a passionate, authentic faith in Christ coming alongside teens. With limitless joy and a hunger for adventure we'll confront the 'who am I' and 'where do I fit' questions of middle school through community and the truth of God's Word.
